

Nursing Prerequisite Equivalency Guide

This guide is designed to evaluate coursework you have taken (or may take) at UW–Madison to satisfy the School of Nursing’s seven prerequisite courses. It is important to remember this is only a guide. It is not necessarily an exhaustive list; other courses may fulfill these prerequisites. It is also possible listed course work is not offered every term, is no longer offered, or even that a listed department or course has been discontinued. We strive to maintain current information, however course numbers and titles do change. Please be sure to talk with your nursing academic advisor to review any questions you might have about satisfying your nursing prerequisites.
