

The School of Nursing created this equivalency guide to assist students working towards the [BSN@Home Program](#) at UW-Madison while preparing to complete their ADN at Madison College. The following table shows the courses offered that meet our corresponding requirements, meant to be used in combination [Transferology](#). NOTE: some of these are different than the traditional BSN at UW-Madison. It is not necessarily an exhaustive list; other courses may fulfill these requirements. Also, remember that these need to be complete by graduation, not admissions. For any particular course in question not listed below, please send an email and unofficial transcripts to bsn.at.home@nursing.wisc.edu. Also, pay close attention to [the transfer admissions requirements](#).

Degree Requirement	Madison College Course Options
Communication A	801201 – English 1
